Raja Ramanna Centre for Advanced Technology (RRCAT), an R & D unit of Department of Atomic Energy (DAE), Government of India is engaged in non-nuclear front-line areas of Lasers, Particle Accelerators & related technologies. RRCAT was established on February 19, 1984 and its' campus is spread in over 680 hectares on the outskirts of Indore city. RRCAT is involved in development of a variety of laser systems and their utilization for applications in industry, medicine and research. The laser systems are effectively used in demanding applications related to nuclear power reactors. RRCAT has indigenously designed, developed, and commissioned two synchrotron radiation sources: Indus-1 and Indus-2, serving as a national facility. Indus-1 is a 450 MeV, and Indus-2 (highest energy particle accelerator in the country) is a 2.5 GeV electron storage ring. The unit also has in-house developed 10 MeV, 6 kW electron LINAC for irradiation of various samples.

Indore, once ruled by Devi Ahilyabai Holkar, is the most developed and commercial capital of Madhya Pradesh. Indore is the education hub of central India and the only city which is having both an IIT and an IIM.

Indore has been awarded as the Cleanest City of India for the sixth consecutive years by the Government of India under Swachh Sarvekshan-2022.

Places to visit in Indore: Rajawada Palace, Lal Bag Palace, Sarafa Bazar, 56 Dukan, Kanch Mandir, Khajrana Ganesh Temple, Central Museum, Nakhrali Dhani, etc.

Around Indore: Mandu, Maheshwar, Ujjain (Mahakaleshwar), Omkareshwar etc
